## DP24

- 24-track digital Portastudio
- Color LCD display and 12-encoder channel strip for simple operation
- Eight microphone inputs on combo XLR-1/4" jacks with phantom power
- Up to eight-track simultaneous recording at 48kHz/24-bit audio resolution
- Solid-state recording to SD Card media for better shock resistance than hard drive recording
- Instrument-level input for direct recording of guitar or bass
- Dedicated controls for EQ, pan and effect sends
- Multiple effects processors for input processing, guitar amp simulation and mastering
- Virtual tracks for alternate takes and undo
- CD-RW drive for mixdown and backup
- Built-in chromatic tuner and metronome
- MIDI input and output for clocking and control
- 6.3-mm jack monitor outputs, effect send outs and headphone output
