| Feature | An all in one type controller for any File music user. Both the controller and software is an easy setup and works straight out of the box. Best for beginners. | Excellent entry model for digital DJing. Audio functions and software bundled, so all you need is a computer and Typhoon. Main features and the body design are the same as SPIN, but the bundled software TRAKTOR is compatible with both Windows and Macintosh OS. Unlike Djay, Traktor LE requires upgrades to PRO or DUO version to record mixes. | Compatible with more than 10 software applications (djay,MixVibes,Deckadance) and includes Traktor. Connectable with any audio interface and suitable for digital DJs. |

※1: The numerical value is high, it becomes a high resolution.

※2: 1 cycle = 1 slyde.

※3: Hardware performance
