

Modern and very compact built-in speaker provided with a 3" full range woofer. This loudspeaker has a "halogen-spotlight" size, what makes it ideal to integrate in each interior.

The loudspeaker impedance is 8 Ohm. This way it is possible to use the CMM108 with a standard HiFi amplifier.

The housing is made of metal. The loudspeaker itself is made of polypropylen, what makes it moisture-proof.

The loudspeaker is easy to install, due to its simple, quick mounting system (2 spring-clamps)

Standard in white colour RAL 9010

From 12 pieces on, the loudspeakers can be painted optionally in any other RAL colour (Ref; PAINT-CMM)
